

RESIDENT RENOVATION

THE CAV

When a Darwin institution gets a facelift, everyone has an opinion. But no one could find fault with the new-look Cav. From the acoustic improvements inside to what everyone longed for—a full bar outside—what was already a great spot to enjoy some of the best food in town is now a must-visit.

One of the biggest improvements is the new kitchen. With The Cav famous for its restaurant-style dishes, the kitchen has always been a hive of activity. 'We made it bigger and better,' manager Dave Cannon said. 'The staff love it and meals come out better than ever.' A big bonus for those working under the pump to keep hungry patrons happy—and for customers—is the new air-con, which has turned The Cav into one of the most comfortable spots in town. That includes the new gaming room, which has gone from 10 to 20 machines and promises a relaxed, casual experience. New toilets have been a hit, while carpet on the floor and acoustic panels on the ceiling have improved the ambience ten-fold. The biggest success is the revamped deck bar. It now offers the full service you find at the bar inside, which has also had a facelift. In true professional Cav style, the renovation took just 16 days. 'I've done more than 20 refits and this is the only one completed on time,' Dave said. 'Full respect to One World Builders.' Head down to The Cav and check it out for yourself.
